One of the most powerful rescue tools

FASTres is an innovative medical pouch designed for Air, Land and Sea rescue missions. It is compatible with MOLLE system. The no-zipper design allows for a silent and quick, one hand opening. With a pull on the handle, the medical inserts are neatly laid out for the first aider in an instance. FASTres is made of 1000 Denier CORDURA nylon fabric for lasting durability. Medical products can be customised to your needs.
