

E-TAC DOG HARNESS

Your Vision is Our Mission.

E-Gear E-TAC Dog harness is a complete new design to fit K9 tactical operation use for sea, land and air.

Modular with molle design enables easy switch among different modes depending on needs, thus maximizes efficiency and mobility.

Features:

1. 3-mode usage: Sea / Land / Air
2. Molle system to equip different modules and gears (e.g. floating devices, ballistic panels or camera)
3. Tailor made size, with adjustable webbing
4. Mil spec materials
5. Neoprene for breathing
6. Thin harness to give a favorable wearing for dogs
7. Widely used by government users

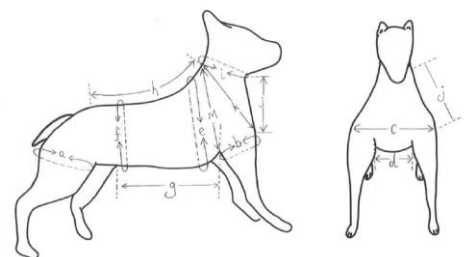

Materials:

1. 1000D Cordura Cloth (Outside)
2. 420D Cordura Cloth (Inside, covering the zip)
3. Nylon U.S. Mesh (surrounding)
4. Neoprene 3-5mm (Double-sided for breathing)
5. EVA 3mm x3 (Floating device, removable molle system) (less EVA for small dog)
6. Nylon safety strap (wrapping the chest in one strap)
7. Buckles & zips: ITW, Nifco, Paragear, YKK
