2023 Ver.

E-Gear Anti-Riot Molle Tactical Vest
w/ detachable shoulder protectors, collar protector

This anti-riot tactical vest is with the excellent mobility, flexibility, comfort and high protection. It is designed for law enforcement officers & crowd control teams, specifically for South Asia region users with high humidity & hot summer.
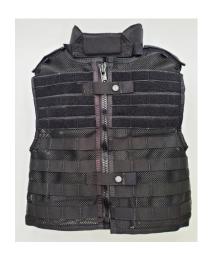

During major public disturbances & riots, the vest allows operator to carry several removable pockets to place a variety of items thanks to its Molle strapping system. Also, this vest with inside pockets for installation of hard plates and soft armor insert depends on different operation needs and different level of threats.

A shoulder protector can be attached to prevent from injuries caused by heavy blows, stabbings or animal bites.
